---

Here is the current list. We are still going through to verify they have not over the weekend uploaded files with the correction made. It's possible they made the changes but didn't upload a new file to ENR, which is needed. Also, we are seeing techs trying to upload March zero files into the June ENR. They need to be very careful not to do that.

County	Changes Needed

Is there a list of the 79 counties we can get so we can assist as needed?

**Subject:** continuing ENR issues

Tom and Scott,

I just heard from Kevin that, as of this morning, we still have 79 counties that have errors in their ENR upload file. It seems that the Dominion techs in those counties did not properly implement the corrections that we identified last week. This is completely unacceptable. If ENR is not successful tomorrow, then we do not have a successful election. This needs to be resolved ASAP. Please keep me posted. I would like confirmation from Dominion before the close of business today that all ENR files in every county are correct.

Thanks,  
Ryan
